

§947.701

(9) Washington Pesticide Control Act, RCW 15.58.

(f) The following are the Washington law and regulations that generally interfere with the achievement of the purposes and requirements of the Act and are, in accordance with section 504(g) of the Act, preempted and superseded. Other Washington laws may in an individual situation interfere with the purposes and achievements of the Act and may be preempted and superseded with respect to the performance standards of §§947.815 through 947.828 as they affect a particular coal exploration or surface mining operation by publication of a notice to that effect in the FEDERAL REGISTER.

(1) The Washington Surface Mining Act of 1971, Revised Code of Washington (RCW) 78.44, as related to surface coal mining, except to the extent that it regulates surface coal mining operations which affect two acres or less or which otherwise are not regulated by the Surface Mining Control and Reclamation Act.

(2) Surface Mined Land Reclamation regulations, Washington Administrative Code (WAC) 332-18, as they apply to surface coal mining, except to the extent that such regulations apply to surface coal mining operations which affect two acres or less or which otherwise are not regulated by the Surface Mining Control and Reclamation Act.

(g) The Secretary may grant a limited variance from the performance standards of §§947.815 through 947.828 of this part if the applicant for coal exploration approval or a surface coal mining reclamation permit submitted pursuant to §§947.772 through 947.785 of this part demonstrates in the application:

(1) That such a variance is necessary because of the nature of the terrain, climate, biological, chemical, or other relevant physical conditions in the area of the mine; and

(2) If applicable, that the proposed variance is no less effective than the environmental protection requirements of the regulations in this program and is consistent with the Act.

§947.701 General.

(a) Sections 700.5, 700.11, 700.12, 700.13, 700.14, 700.15, and part 701 of this chapter shall apply to surface coal mining operations in Washington.

(b) The following modified definitions shall be applicable under §701.5 of this chapter:

(1) *Arid and semiarid area* means, in the context of alluvial valley floors, an area of the interior western United States, west of the 100th meridian west longitude, experiencing water deficits, where water use by native vegetation equals or exceeds that supplied by precipitation. All coalfields located in North Dakota west of the 100th meridian west longitude, all coalfields in Montana, Wyoming, Utah, Colorado, New Mexico, Idaho, Nevada, and Arizona, the Eagle Pass field in Texas, and the Stone Canyon and the Ione fields in California are in arid and semiarid areas, except that all coalfields located in the State of Washington west of the crest of the Cascade Mountain Range are not in arid or semiarid areas.

(2) *Forestry (Forest Land)*. Includes land used or managed for the long-term production of wood, wood fiber, or wood derived products. All land which is capable of supporting a merchantable stand of timber and is not being actively used in a manner or for a use which is incompatible with timber growing is also included. Land used for facilities in support of forest harvest and management operations which is adjacent to or an integral part of these operations is also included.

(c) Records required by §701.14 of this chapter to be made available locally to the public shall be retained at the county recorder's office of the county in which an operation is located, and at the nearest OSM Field Office.

other minerals for purposes of commercial use or sale.

[54 FR 52123, Dec. 20, 1989]

§ 947.707 Exemption for coal extraction incident to government-financed highway or other construction.

Part 707 of this chapter, *Exemption for Coal Extraction Incident to Government-Financed Highway or Other Construction*, shall apply to surface coal mining and reclamation operations.

§ 947.761 Areas designated unsuitable for surface coal mining by act of Congress.

Part 761 of this chapter, *Areas Designated by Act of Congress*, shall apply to surface coal mining and reclamation operations.

§ 947.762 Criteria for designating areas as unsuitable for surface coal mining operations.

Part 762 of this chapter, *Criteria for Designating Areas Unsuitable for Surface Coal Mining Operations*, shall apply to surface coal mining and reclamation operations.

§ 947.764 Process for designating areas unsuitable for surface coal mining operations.

(a) Part 764 of this chapter, *State Processes for Designating Areas Unsuitable for Surface Coal Mining Operations*, pertaining to petitioning, initial processing, hearing requirements, decisions, data base and inventory systems, public information, and regulatory responsibilities shall apply to surface coal mining and reclamation operations.

(b) The Secretary shall notify the Washington Department of Natural Resources and the Department of Ecology of any area designated unsuitable or for which such designation has been requested or terminated.

§ 947.772 Requirements for coal exploration.

(a) Part 772 of this chapter, *Requirements for Coal Exploration*, shall apply to any person who conducts or seeks to conduct coal exploration operations.

(b) The Office shall make every effort to act on an exploration application

within 60 days of receipt or such longer time as may be reasonable under the circumstances. If additional time is needed, OSMRE shall notify the applicant that the application is being reviewed, but that more time is necessary to complete such review, setting forth the reasons and the additional time that is needed.

§ 947.773 Requirements for permits and permit processing.

(a) Part 773 of this chapter, *Requirements for Permits and Permit Processing*, shall apply to any person who applies for a permit for surface coal mining and reclamation operations.

(b) In addition to the requirements of part 773, the following permit application review procedures shall apply:

(1) Any person applying for a permit shall submit five copies of the application to the Office.

(2) The Office shall review an application for administrative completeness and acceptability for further review and shall notify the applicant in writing of the findings. The Office may:

(i) Reject a flagrantly deficient application, notifying the application of the findings;

(ii) Request additional information required for completeness stating specifically what information must be supplied and negotiate the date by which the information must be submitted; or

(iii) Judge the application administratively complete and acceptable for further review.

(3) Should the applicant not submit the information as required by § 947.773(b)(2)(i) by the specified date, the Office may reject the application. When the applicant submits the required information by the specified date, the Office shall review it and advise the applicant concerning its acceptability.

(4) When the applicant is judged administratively complete, the applicant shall be advised by the Office to file the public notice required by § 773.6 of this chapter.

(5) A representative of the Office shall visit the proposed permit area to determine whether the operation and reclamation plans are consistent with
